

PROTECTION FROM PESTS

Thanks to a two-pronged approach, your crops gain protection from a range of above- and below-ground pests. Our hybrids feature a full range of traits and treatments to address any challenges you may encounter, ensuring maximum safety.

Above-Ground

Unique traits protect your plants—ear, leaf, and stalk—from a range of above-ground pests. Combined with broad below-ground protection, these traits set your fields up for success.

VTDoublePRO[®] Trecepta[®]

Above & Below Ground

Separate proteins bind together, enabling unique modes of action and providing maximum coverage for your crops both above and below ground. Protection for your roots and your above-ground plants, in a single hybrid.

*Please read seed tag to confirm the herbicide tolerance of the refuge component before use of glufosinate or glyphosate. DuPont Pioneer claims suppression of corn earworm on Optimum® AcreMax® 1, Optimum® AcreMax®, and Optimum® AcreMax® Xtreme labels with Herculex® I technology. Cry1A.105 and Cry2Ab2 from B.t. controls or suppresses corn earworm. Syngenta claims suppression of corn earworm with Bt1.1. Performance may vary from location to location and from year to year, as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible and should consider the impacts of these conditions on the grower's fields. DuracadeViptera™, Viptera™ Z3, Viptera™, and Agrisure Viptera® 3110A contain Agrisure Artesian® technology.
