

Provides tolerance to dicamba and glyphosate herbicides. Medium-tall plant with good growth on heavier soils. Maintains good height on heavier soils. Exceptional emergence and early season vigour in both tilled and no-till situations. Perfect option for no-till practices. Strong ability to branch and set pods. Very good agronomics with strong white mould resistance. Take advantage of excellent standability on productive soils with heavy pod loads. Responds to intensive management, but tough enough even for the lower yielding environments.

PRODUCT FEATURES

- Grower choice, flag ship leader Roundup Ready 2 Xtend® variety ideally suited for the mid to late MG 0 season zones
- Offensive powerhouse that yields with the full-season Group 0's and early Groups I
- Outstanding emergence and early season vigour
- Position with confidence across a wide range of environments, but potential to hit big numbers on highly productive soils
- Good early planting option, especially for no-till production
-

All orders and sales are subject to the PRIDE Seeds Terms and Conditions of Sale, which include but are not limited to the Limitation of Warranty & Remedy and Agronomic Zone and Planting Year. All Terms and Conditions of Sale are subject to change from time to time without prior notice. PRIDE® & Design, P® & Design, Advantage Acre®, and Pride Advantage Acre® & Design are registered trademarks of AgReliant Genetics Inc. Characteristics are assigned by PRIDE® based on comparisons with other PRIDE® products (not competitive products) through in-house field testing. Individual results may vary, and performance may vary from location to location and from year to year. This result may not be an indicator of results you may obtain as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. It is a violation of federal law to use any pesticide product other than in accordance with its labeling. NOT ALL formulations of dicamba or glyphosate are approved for in-crop use with products with Roundup Ready 2 Xtend® soybeans. ONLY USE FORMULATIONS THAT ARE SPECIFICALLY LABELED AND APPROVED FOR SUCH USES. Contact the Pest Management Regulatory Agency with any questions about the approval status of dicamba herbicide products for in-crop use with Roundup Ready 2 Xtend® soybeans or products with XtendFlex® Technology. Roundup Ready® 2 Technology contains genes that confer tolerance to glyphosate. Roundup Ready 2 Xtend® soybeans contains genes that confer tolerance to glyphosate and dicamba. Glyphosate will kill crops that are not tolerant to glyphosate. Dicamba will kill crops that are not tolerant to dicamba. Contact your Bayer retailer, refer to the Bayer Technology Use Guide, or call the technical support line at 1-888-283-6847 for recommended Roundup Ready® Xtend Crop System weed control programs.
